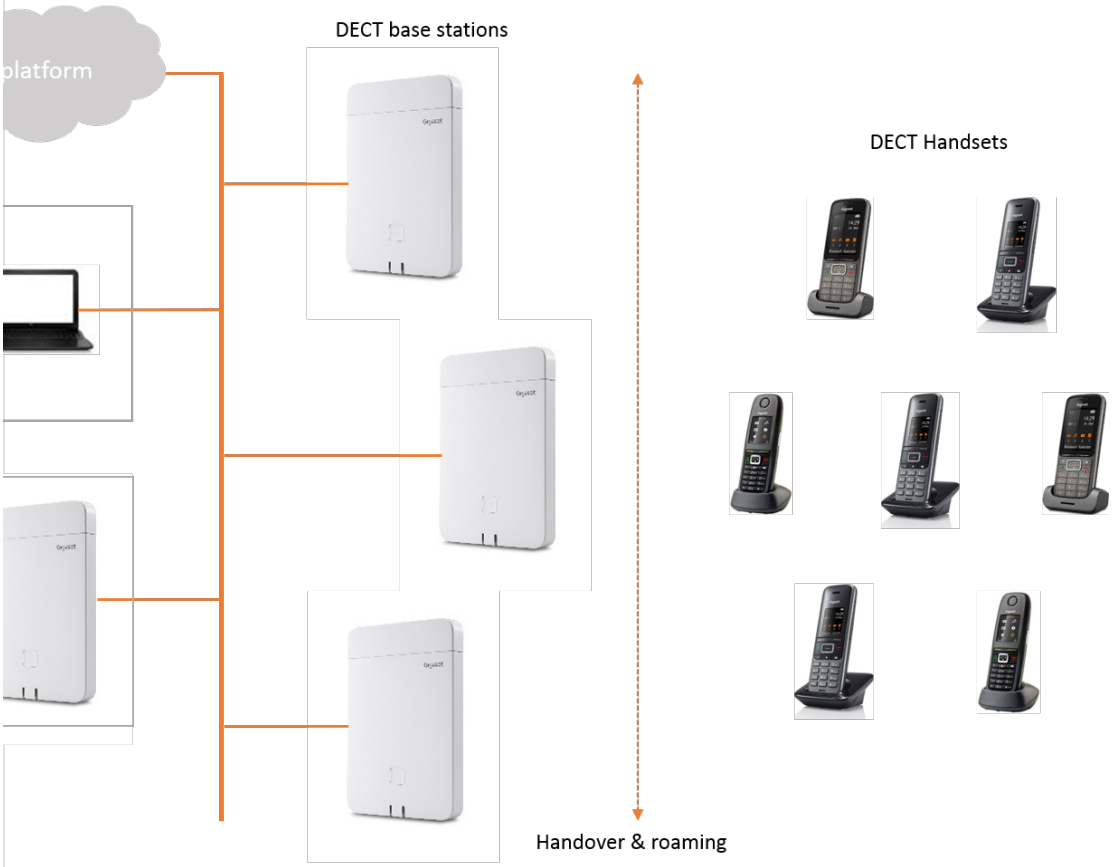
FAQ - Medium size system

Valid for:	~~N610~~	N670	N870	N870E	Embedded Integrator	Virtual Integrator

System overview

An N870 Medium sized system is described below.

	Minimum Size	Maximum Size
DECT Integrator & DECT Manager	1	1
Additional DECT Base	1	60
DECT Handsets	*	250
Max. Parallel calls	5 - 10 (See below)	60



Connection capacity		
Enabled codecs	**INT + DM**	**Base only**
G.711 only	0	10
G.729 & G.711	0	8
G.722 & G.729 & G.711	0	5

* = Number of handsets is based on the required traffic volume (Erlang E), we recommend to use maximum 20 DECT handsets per DECT base.
