

February 2, 2012

Greetings,

BroadSoft is pleased to announce that the Gigaset IP Phones have been formally validated with BroadWorks. The device model(s) listed below have been validated as interoperable with the BroadWorks SIP interface. Any issues and limitations identified during the interoperability testing are documented in the BroadSoft Partner Configuration Guide (PCG) *PartnerConfigGuide Gigaset IP Phones*. The PCG is available to BroadSoft customers on the BroadSoft Xchange website, <http://xchange.broadsoft.com>.

BroadSoft validates that the device works properly with the BroadWorks SIP interface. BroadSoft does not validate qualitative aspects of the device or other device capabilities, which are outside the scope of the SIP signaling interface.

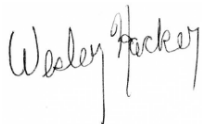

The validation covers the Gigaset release(s) and BroadWorks version listed below. Other releases tested previously are documented in the PCG.

C590 IP Phone  
C595 IP Phone  
C610 IP Phone  
C610A IP Phone  
N300 IP Phone  
N300A IP Phone  
N510 IP PRO Phone  
A510 IP Phone  
A510A IP Phone

Gigaset version V.51 \*  
BroadWorks Release 17.SP3

\*This validation also applies to all subsequent maintenance releases to this device version.

Thanks,

Wesley Hacker
