Call Handling

Transferring a call to another party

You are speaking to one participant & you want to transfer the call to a third participant. Note this can be an internal extension or an external party.

Transfer without consultation

R

Press the R transfer key or the Soft Key labelled Ext. Call. The call is placed on hold

Internal user /group

Enter the phone number (or use the **Directory**) for the participant to whom you wish to transfer the call & wait

Listen for ringing & press the **End** key. Your connection to the participant is ended & the call is transferred

External number

Enter the phone number **with the defined prefix** for the participant to whom you wish to transfer the call & wait

Listen for ringing & press the **End** key. Your connection to the participant is ended & the call is transferred

Consultation call with or without transfer

Use this function to announce the call to the other party with the option to transfer or to return to the caller again.

Press the R transfer key or the Soft Key labelled Ext. Call. The call is placed on hold

Internal user /group

Enter the phone number (or use the **Directory**) for the participant you wish to call & wait

External numbe

Enter the phone number with the defined prefix for the participant you wish to call & wait

When the other party answers....

EITHER: announce the call & press the End key to transfer

OR: to return to the held party press the **Options** soft key then select **End Active Call** then select **OK**[Note also the other Option to Conference both parties instead at this stage]

Voice Mail

Voice Mail

You will be notified of new messages by the flashing Envelope **Message** key. Also the quantity of new messages is displayed next to the **Q_O** icon in the display

Press the **Message** key or press and hold **1**. Follow the prompts for instructions
