

# Support UK

Welcome to the Support area for the UK

 This section contains information on the following four elements:

**Ticket Tool**

**Training**

**Warranty/RMA**

**Distributors**

## How to get help with problems...

The Gigaset pro [Partner Programme](#) ensures that all parties in the supply chain receive access to Technical Support via an escalation process using the Gigaset Ticket Tool. By all parties using a common ticketing platform ensures a speedy resolve to problems.

### Supporting the End User

Gigaset pro Authorised Partners/Resellers provide first line support to End User Customers who require assistance with the configuration or operation of pro products. Each Gigaset pro Partner has a support helpdesk and expert staff who are trained on the Gigaset pro products. End Users can contact this department with operational and configuration questions including [faulty equipment and warranty issues](#).

> Summary: End User Customer - please contact the Authorised Partner from whom you purchased your Gigaset pro product as they will be pleased to provide you with support in the first instance.

### Supporting Gigaset pro Authorised | Silver | Gold Partners

Gigaset pro Authorised Partners in turn receive support from [Gigaset pro Distributors](#). In the event that the Partner is unable to resolve a problem it can raise a Support Ticket on the Distributor. Additionally Distributors can arrange [Training](#) on the Gigaset pro product sets which the Partner specialises in and which it supplies to its end User Customers.

> Summary: Authorised Partner – please raise a Support Ticket by logging into the [UK Partner Portal](#) & following the Service link.

### Supporting Gigaset pro Distributors

In the event that a [Gigaset pro Distributor](#) is unable to resolve a problem it can forward the ticket or raise new Support Tickets directly on the Manufacturer.

> Summary: Distribution Partner – please raise a Support Ticket by logging in [here](#).

### Gigaset pro Support Escalation Overview:

Please [click here](#) for a Ticket Tool User Manual which includes logins and instructions on how to raise a ticket.

## Gigaset pro Training

### How to gain knowledge...

Gigaset pro Authorised Partners/Resellers must have achieved a required level of training on each of the Product Sets which it supplies. This falls into three modules:

- > Gigaset pro IP Desktop Telephones. Products: [DE310](#) | [DE410](#) | [DE700](#) | [DE900](#) and Maxwell Android. Includes Assessment with Certification - 1 Day
- > Gigaset pro IP DECT Systems including DECT Surveying. Products: [N510](#) | [N720](#) | [DX800A](#). Includes Assessment with Certification - 1 Day
- > Gigaset pro PBX Systems. Products: [Hybird120 GE](#) including [AutoProvisioning](#) of IP phones. Includes Assessment with Certification – 1 Day

Please contact your [Gigaset pro Distributor](#) for further details including forthcoming training locations and dates.

## Gigaset pro Warranty/RMA

### When things go wrong...

All Gigaset pro products are supplied with a two year Manufacturers Warranty.

The [Gigaset pro Distributor](#) will assist the Authorised Partner/Reseller with any problems experienced with Gigaset pro products including DOA items. In the event the Distributor is unable to resolve any product technical or operational issue, before it authorises a credit or replacement to the Reseller, it must report the problem to Gigaset pro via the [Ticket Tool](#). After all it could simply be that the product has been configured incorrectly or that there is a known bug for which there is a firmware fix available, for example. Only in the event that Gigaset pro has itself concluded that the item is defective should the Distributor proceed with crediting or replacing the item for the Reseller and raising an RMA on Gigaset.
