## Innovaphone

### About Innovaphone

The management team is made up of the innovaphone AG shareholders. This shareholder structure has had and indeed still has a lasting effect in establishing the internationally oriented company as a reliable partner in the European IP telephony and Unified Communications market. The entire product range is developed and tested in Germany. This process is driven by an innovative development department, which significantly shaped the technological progress and is aware of its environmental responsibilities (Green IT). innovaphone's roots lie in German small and medium-sized business – the products, such as IP phones, VoIP gateways, analogue adapters etc. are being used across Europe. Entrepreneurial spirit and development work are characterised by the emphasis placed on the guiding concepts of achieving long-term value, producing durable products and reliability.

See below for a list with supported features when using the Gigaset PRO DECT IP Devices on Innovaphone
