

# FAQ 3CX - Auto-provisioning templates

## Introduction

Auto-provisioning templates can be added or changed.

The templates can be found on the 3CX platform:

Desktop phones like Maxwell:

- On the 3CX server put the xml file in the directory: `/ProgramData/3CX/Instance1/Data/Http/Templates/Phones`
- On a Debian 3CX server, put the XML file in the directory: `/var/lib/3cxpbx/Instance1/Data/Http/Templates/phones`

DECT Phones like N870 and N670

- On the 3CX server put the xml file in the directory: `/ProgramData/3CX/Instance1/Data/Http/Templates/fixs`
- On a Debian 3CX server, put the XML file in the directory: `/var/lib/3cxpbx/Instance1/Data/Http/Templates/fixs`

Via SSH access you can add or change the templates.

### How to activate the new/changed templates:

Open the web-interface of the 3CX PBX and go to: **Dashboard - Services** and click on "**3CX Event Notification Manager**"

3CX Event Notification Manager	Running
--------------------------------	---------

With the 3CX version 15.5 you need to restart the service: **Dashboard - Services** and click on **3CX PhoneSystem 01 Configuration Server**

Restart the Service to activate the template.

The following Gigaset templates are available.

## Auto-provisioning templates

Feature	Maxwell Basic / 2 / 3 / 4	N870/N670
	<a href="#">gigasetmaxwell.ph_06_05_2019.zip</a>	Distinctive ring / Call transfer: (Software 2.26.0) <ul style="list-style-type: none"> <li>• <a href="#">N870_N670_3CX_Fixed_Numbering_Nov_2019.zip</a></li> <li>• <a href="#">N870_N670_3CX_IPUI_Nov_2019.zip</a></li> </ul> Fixed Numbering: (Software 2.23.0) <ul style="list-style-type: none"> <li>• <a href="#">N870_N670_3CX_Fixed_Numbering_Sept_2019.zip</a></li> <li>• <a href="#">N870_N670_3CX_Fixed_numbering_July2019.zip</a></li> </ul> IPUI: (Software 2.23.0) <ul style="list-style-type: none"> <li>• <a href="#">N870_N670_3CX_IPUI_Sept_2019.zip</a></li> <li>• <a href="#">N870_N670_3CX_IPUI_July_2019.zip</a></li> </ul>
