

DE310/410 - Speed dial function via numeric keys

User has the possibility to assign "speed dial function" to hard-keys "1","2" up to "9" ("0" is not offered). Long-press of 1-9 keys triggers dialing of assigned number.

Software version:

- DE410/310: 02.00.04 or higher

In the web-interface go to: Settings - Function Keys
