

FAQ Maxwell - Broadsoft Call Logs

Introduction

Broadsoft supports the following Call logs:

- Basic Call Logs
- Enhanced Call Logs

Valid for Maxwell			
Basic	2	3	4

Configuration

You can select the required Call log.

The Broadsoft phone books can only be used if the [XSI service](#) is configured and working.

Call log

Use Call Log Enhanced Call Log Basic Call Log

Auto provisioning

This functionality is mostly enabled via Broadsoft auto provisioning, see below for the provisioning parameters.

Parameter	Description
Telephony.PhoneSystem.XSI.CallLogType	0 = Basic Call log 1 = Enhanced Call log
Example: <code><param name="Telephony.PhoneSystem.XSI.CallLogType" value="0"/></code>	

Info

- The Maxwell will update the Call log after every incoming and outgoing call.
- When the first time online and you never made/received an call the call log is empty until the first call is made.
