# FAQ Broadsoft - Busy Lamp Field Maxwell 10

## Introduction

Here you can find the description how to use the BLF keys in a Broadsoft environment. (For security reasons we removed the URL's in the example below)

## Broadsoft configuration

In Broadsoft management system go to: **Users** - **Select the user** - **Client Applications** - **Busy Lamp Field**

- Define the URI for the BLF list, must be an unique name.
- Add the Users you would like to have under the BLF keys to the **Monitored Users** list
- Press OK to save the settings
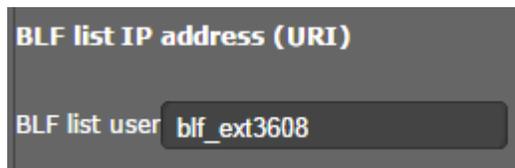

## Gigaset Desktop device configuration

In the web-interface of the Maxwell 10 go to: **Settings - Network and Connections - Phone systems**

**Connected with phone systems**
: **Broadsoft**

When selected, also the BLF field will be visible.

**BLF list user = Broadsoft List URI** (First Picture on this page)

## Gigaset BLF keys

Now you have to add the BLF keys manual to the device, go to:

**Settings - Function Keys** and add the BLF key.

For the Phone number you need to enter the same naming as in the broadsoft **Monitored Users** list

Programmable Key

| | |
|---|---|
| Key | PK1 |
| Function | BLF ▾ |
| Connection | 3608 ▾ |
| Name | 3610 |
| Phone number | Gigaset3610 |
| Directed call pickup code | *97 |

ⓘ **Info**

Subscribe is only send when BLF key is configured. When no BLF key is present then device will not send subscribe.

BLF keys have to be configured manually.
