

FAQ Nx70 - Auto provisioning: Disable services (sub)menu (s)

Valid for: N670 N870

Introduction

From software 2.21 it is possible to hide the DECT handset menu's.

- Select Services
 - Next Call Anonymous
 - Call Divert
 - Call Waiting
 - Do Not Disturb
 - Ringback Off

The disable **Select Services** menu must be done before the handset is registered. Else the menu is still visible. This is because the (top) menu structure is send to the handset during registration. The sub-menu's enable/disable can always be used.

Auto provisioning

Parameter	Value
DmGlobal.0.HSMenuSettings	SELSER=1,CW=1,CF=1,NCAN=1,DND=1,RBOFF=1

Example

```
<?xml version="1.0" encoding="UTF-8"?>
<provisioning version="1.1" productID="e2">

<nvm>

  <!--HS menu settings: -->
  <!-- SELSER Select Service grid menu icon (re-subscription necessary) -->
  <!-- CW Select Service, Call Waiting menu on/off ('1','0') -->
  <!-- CF Select Service, Call Divert menu on/off ('1','0') -->
  <!-- NCAN Select Service, Next Call Anonymous menu on/off ('1','0') -->
  <!-- DND Select Service, Do Not Disturb on/off ('1','0') -->
  <!-- RBOFF Select Service, Ring Back Off on/off ('1','0') -->

<param name="DmGlobal.0.HSMenuSettings" value="SELSER=1,CW=1,CF=1,NCAN=1,DND=1,RBOFF=1" />

</nvm>
</provisioning>
```
