Teles

Over Teles

TELES is a leading provider of communications solutions for carriers and business customers. Around the globe, more than 300 carriers and business customers rely on proven solutions and technology from TELES. This includes a broad spectrum of subscriber, fixed network substitute and network infrastructure solutions as well as network interconnection solutions.

Founded in 1983, the company now has more than 100 specialists working to develop, produce and market intelligent, trendsetting communications solutions from the company's headquarters in Berlin and from offices in Vienna. Our goal is to provide customers with straightforward, long-lasting telecom solutions with dependable, stable functionality.

TELES was founded in Berlin and is a Deutsche Boerse Prime Standard listed company.

See below for a list with supported features when using the Gigaset PRO IP Devices on the providers network.
