

FAQ N720 Auto-Answer

Introduction

Some VoIP platforms support Intercom/Broadcast groups, the platform can send an INVITE with a special header that enables the phone to answer the call automatically.

Phone settings

In the N720 you can define what should happen if the call is ringing and this header is available.

Calls via Call Manager, accept call directly:

- Via headset
- Via handsfree
- No (Device will ring and you need to answer manually)

In the web-interface go to: **Settings - Mobile devices - Edit**
