

FAQ Maxwell - Function keys long press to configure

Introduction

For now implemented on Maxwell 2 / 3 / 4

The user can via a long press on the Maxwell 4 display configure function keys manually or long press function key on Maxwell 2 + 3.

- Click on an existing function key to **Edit**, **Delete** or on an empty space to **Add** a new function key.

- You can configure the following function keys:

- No Function
- Busy Lamp Field (BLF)
- Quick Dial
- Line
- Call Divert
- Feature Access Code (FAC)
- Park + Retrieve
- DTMF
- Next Call Anonymous
- SIP Info
- SIP URI
- Action URL
- PBX Feature
