

FAQ - License: Grace period

Grace period meaning and consequences

Virtual Integrator

Period 1:
35 Days, no limitation

Period 2:
35 Days, handsets
and web-ui show
license message

Period 3:
Maximum of 1 call
per DECT Manager

- An Virtual/Embedded integrator installation can be tested for 35 days without any limitation and any purchased license
 - a. After first startup
 - b. After each full factory reset
- After 35 days the message "**Check License status**" will be shown on **all** installed DECT handset, for additional 35 days (day 36 – 70 after first startup/factory reset)
- Also a license error message will be shown in the N870 web-interface.
- **But**, the system will stay fully functional.
- After a total number of **70 days** after first startup/factory reset the number of parallel calls will be reduced to **1 call per connected DECT manager**, unless a valid license file will be uploaded into the N870
