

Factory reset T300/T500

You can reset the Gigaset T300/T500 to factory default using the following procedure:

WEB-interface:

- Download the empty backup [here](#).
- Open the WEB-GUI from the Gigaset T300/T500.
- Go to "Configuration" - "Server" - "Backup"
- Restore the backup from file, select the file dependent of your PBX version.
- The PBX will be set to factory.

Command line

```
chmod +x /usr/sbin/resetstarface.sh
```

```
/usr/sbin/resetstarface.sh
```
