

# GX290 PRO

## Introduction

The GX290 PRO is suitable for use in an everyday professional life. The adaptive 6.1" HD+ V-notch display has a resolution of 1.560 x 720 pixels, a brightness of 580 cd/m<sup>2</sup> and a contrast ratio of 1000:1 - for the best screen visibility, even in bright sunlight. The GX290 PRO comes with Android Enterprise™ as standard, offering companies and their employees an impressive array of benefits in terms of administration and everyday professional use. The operating system runs on the MediaTek Helio P23 octa-core MT6763 - this processor has a clock rate of 2.0 GHz and supports 4G LTE at up to 150 Mbps with VoLTE and VoWiFi. This allows calls to be made directly over a high-speed internet connection with optimum sound quality - even in noisy environments.

## GX290 PRO Smartphone

- Robust 6.1" 19.5:9 HD+ V-notch display with Corning Gorilla® Glass 3
- Long-lasting 6200-mAh battery with 9-V/2-A PE+ quick-charging function via USB Type-C
- Wireless charging up to 15 W
- Powerful octa-core processor with 4G LTE with VoLTE and VoWi-Fi
- 4-GB RAM + 64-GB internal memory
- 13-MP (SONY sensor) + 2-MP dual main camera with ArcSoft® optimisation and 8-MP front camera
