

Innovative 360° rotary belt clip

Professional belt clip (accessory)

Gigaset 360° Swivel Belt Clip

- Part number: S30852-Z2974-R102

The robust Gigaset swivel belt clip made of high-quality plastic consists of two parts - the handset carrier and the belt clip. This allows S700H PRO to be attached to an ordinary belt. Due to the 360° rotation feature the handset is optimally fixed and still offers the desired freedom of movement. All connections on the device are still freely accessible.
