

FAQ - Auto-provisioning: Certificates

Valid for: N610 N670 N870 N870E Embedded Integrator Virtual Integrator

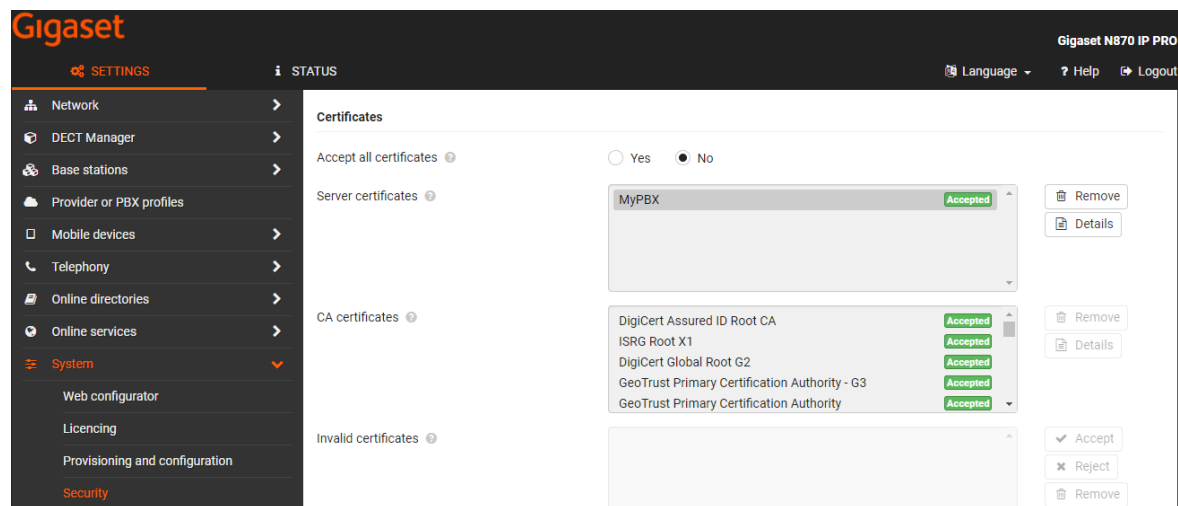

Valid for N610 / N670 / N870 / N870E.

You can upload certificates via auto-provisioning, the following certificates can be uploaded.

- Server certificates
- Client certificates

Server certificates

In the web-interface you can find the Server certificates/CA certificates: **SETTINGS - System - Security**

provisioning example

```
<?xml version="1.0" encoding="UTF-8"?>
<provisioning version="1.1" productID="e2">

  <nvm>
  </nvm>

  <custom>
    <!-- Download CA -->
    <step type="certificate" url="http://serverURL/CA_Combined.pem" flags="FORCE_ACCEPT"/>
  </custom>
</provisioning>
```

Client certificates
