

GX4 PRO

Introduction

Made in Germany

It's all made possible thanks to Gigaset's "Made in Germany" production process. Gigaset is the only European company that produces smartphones in Germany. The smartphones are manufactured on state-of-the-art production lines in the familiar Gigaset quality. More than 63% of the added value is generated in Germany. Another advantage is that we can repair the smartphones — even the individual components, if necessary. This is cost-effective, sustainable and helps you to avoid losing your data.

GX4 PRO Smartphone

- Ruggedized to military standard MIL-STD-810H + IP68 dust & waterproof
- Powerful and enduring 5000 mAh removable battery: Supports super fast charging up to 30 W and wireless fast charging up to 15 W
