DECT manager registration

Parameter	Description
DM Name	The name is used to identify the DECT manager within DECT manager lists. Enter a meaningful name for the DECT manager, e.g., referring to the location or organizational unit.
Password	The password must be entered when registering the DECT manager at the Integrator. Enter a password for DECT manager registration. You should note this password to have it available, when you will have to enter the account data later at the DECT manager.
RPN Group	Part of the RFPI for a DECT manager. PARI and RPN must be locally unique in order to achieve that the RPN group allocated for the base stations of a DECT manager is locally unique in the system too.
