

Astimax

Astimax

About Astimax

Established in 2004 Astimax was one of the first Asterisk® appliances available. With this pioneering work we built our vision of professional communication solutions that are easy to use for anyone. Our highly motivated and experienced team works daily to turn this vision into reality which resulted in our well established Astimax VoIP PBXs and conference server. We set great store by personal interaction with our customers. Please feel free to contact us if you have suggestions, need professional input for solving your communications problems, or just like to know on a personal basis who we are.

ADDIX is an owner-managed software development company with emphasis on communication solutions. With focus on developing telecommunication products our portfolio includes professional solutions for business deployment as well as OEM solutions. Flexibility is just one of our assets and our curiosity is the driving force for product innovation. We strive to keep our portfolio up-to-date with current trends and developments in order to make our customers benefit from cutting-edge technology.

Astimax VoIP PBXs and conference servers are highly scalable systems that can be configured based on your individual needs. We offer UC and CTI features as well as integration of WebRTC. The portfolio is completed with enhanced features like Astimax VPL, Astimax Mobile and Astimax Care.

See below a list with supported features when using the Gigaset PRO IP Devices behind a ASTIMAX PBX system.
