

FAQ Maxwell - Locking/unlocking the keypad / Emergency numbers

Introduction

The keypad lock prevents any accidental use of the telephone. If the device is locked with a PIN, you need this to unlock,

Switch on: Key "# aA" Press and hold

Switch off: Press and hold Key "# aA" ... use to enter the handset PIN (Default 1234)

Valid for Maxwell			
Basic	2	3	4

 If a call is indicated on the handset, the keypad automatically unlocks and you can accept the call.

Changing the PIN

The device is protected against unauthorised use by a PIN is enabled. Change the device PIN by opening the web-interface.

Click on the Icon in the right upper screen and select **Change Phone PIN**.

From software 3.16 you have the new option dial emergency numbers.

This allows you to define emergency numbers that can be dialed when the keypad is locked.

A new menu is available: SETTINGS - Telephony - Phone Lock

Emergency numbers

This option available in the 3.16 offers you the possibility to dial emergency numbers when the phone is locked.

Status	Maxwell 4	Maxwell 3
<p>Device is locked.</p> <p>EMERGENCY CALL and UNLOCK PHONE</p> <p>softkeys are available</p>		
<p>Press EMERGENCY CALL the device shows a</p> <p>list with configured Emergency numbers.</p> <p>Select the number to dial.</p>		
<p>Press UNLOCK PHONE to unlock the phone using the PIN code.</p>		

Auto-provisioning

Parameter	Description
PhoneUI.Directory.Local.HideEmergencyContacts	0 = Show emergency contacts in local phone-book 1 = Hide emergency contacts in local phone-book
<p>Provisioning example:</p> <pre><?xml version="1.0" encoding="UTF-8"?> <provisioning version="1.1" productID="mx3b"> <nvm> <param name="PhoneUI.Directory.Local. HideEmergencyContacts" value="0"/> </nvm> <custom> <step type="EmergencyPhoneBook" url="/emergency.xml" /> </custom> </provisioning></pre>	<p>Via the <custom></custom> option, the URL to the file containing the emergency numbers set</p>
<p>emergency.xml file example</p> <pre><?xml version="1.0"?> <list version="1.0"> <entry name="112" manuallyCreated="false" emergency="112"/> <entry name="Missing children" manuallyCreated="false" emergency="116000"/> </list></pre>	<ul style="list-style-type: none">• Up to 10 emergency numbers can be provisioned• Option "manuallyCreated" is for future development
