

# R630H PRO

## Ruggedized to operate in extreme environments

- Dust and waterproof according to IP65 standards with the added benefit of shock resistance
- Support of MultiCell systems with roaming and handover
- Choice of Audio profiles and vibration alert
- Rubber surface to ensure the perfect grip

### Important

When you use the R630 behind the N720 and you are missing features like Call-list / Telephone book / Message Waiting, then it could be that the R630 is not recognised as an PRO handset and to solve this you can upload this [config file](#).

After upload the N720 will restart and then the R630 will have all PRO features.
