| Miscellaneous          |   |
| Reboot & Reset         |   |
| Save & Restore         |   |
| <b>Firmware Update</b> | <p>On starting the firmware update, the device checks if the requirements of a successful firmware download are fulfilled. The firmware is then downloaded without additional feedback. During the download and update, the handset / base connection is lost. A successful update results in the handset re-establishing the base connection.</p> <input type="button" value="Update firmware"/> |
