

DE310/410 - Speed dial function via numeric keys

User has the possibility to assign "speed dial function" to hard-keys "1","2" up to "9" ("0" is not offered).
Long-press of 1-9 keys triggers dialing of assigned number.

Software version:

- DE410/310: 02.00.04 or higher

In the web-interface go to: Settings - Function Keys

Speed Dial

You can allocate a phone number to a numeric key, which is activated via hold down of the key.

Keys	Phone Number
1	207
2	
3	
4	
5	
6	
7	
8	
9
