Award Winning Telephone Services - ITS

PA

Best Business VoIP Provider 2013

Voipfone provides award winning, reliable and inexpensive cloud based telephone services specifically designed for small businesses.

Anyone can use Voipfone - you could be a brand new start-up simply needing a new phone number, a growing business needing a flexible way of supporting new staff or homeworkers, an established business needing to replace an obsolete office PBX or switchboard. Or perhaps you need our free SIP trunks to connect your own VoIP PBX telephone equipment?

With Voipfone, you can move your telephone services to the cloud and have a maintenance free, hosted VoIP PBX phone system that can be set up simply, quickly and cheaply.

You can order our phone services via our web-based control panel and have a fully functioning, sophisticated, hosted VoIP telephone service within minutes. All backed up by our free, award winning, professional, UK based, Customer Service team.

We are the 2013 winners of the Institute of Customer Services, Customer Focus Award so you know we'll look after you.

Voipfone is also an award winning telephone system that works anywhere - it starts for as little as £2 per month for a telephone number, with many clever features thrown in for free – such as call barring, call transfer, music on hold, call conferencing, etc.

Our modern digital VoIP network has 99.99% uptime and provides higher quality telephone calls than landlines or mobiles - essential for business grade telephone services.

Voipfone has been providing business class, cloud based, hosted telephony since 2004. We are a founder member of the [Internet Telephone Service Providers Association \(ITS PA\)](#) and hold its Quality Mark.
