

# FAQ Maxwell - Personalized Ringtones

## Introduction

The User has the possibility to upload own Ringtones to personalize the ringtones for the supported Events.

The Events are:

- Internal Calls
- External Calls
- Group Calls
- Door Calls
- Optional

Valid for Maxwell

Basic

4

The screenshot shows the Gigaset web interface for configuring ringtones. The interface has a dark sidebar on the left with a menu containing: SETTINGS (active), STATUS, Network, Telephony, Online Directories, Online Services, Desk Phone (expanded), Main Menu, Ringtones (active), Display, Pictures, Message Notification, Keys and LEDs, Events, Web Configurator, and System. The main content area is titled 'Ringtones' and includes a 'Default ringtone' section with a dropdown set to 'Gigaset' and a 'Play' button, along with a checked 'Use for all calls' option. Below this is a table with two columns: 'Connection' and 'Ringtone'. The table lists configurations for 'Gigaset PRO' across various call types: External calls (Evolve 1), Internal calls (Piano), Group calls (Green Tea), Door Station (Evolve 2), and Optional (Gigaset). Each entry has a 'Play' button. At the bottom, there is a 'Load Ringtones from PC' section with a 'Ringtone file' label, a 'Browse...' button, and 'Set' and 'Cancel' buttons.

## Configuration

1. Login to Maxwell 3 / Basic Web-UI (<http://<ip.addr>>) with the **Administrator** or User password
2. Browse to Settings/DeskPhone/Ringtones
3. Press button  and choose the desired ringtone
4. Press button  to upload the ringtone to the device
5. The ringtone shall be displayed below "Stored Ringtones"
6. Now you can choose the Ringtone for the supported Event.
7. Press "Save"
