

N720 - Secure Provisioning - TLS version supported.

Introduction

The N720 supports TLS for provisioning and phonebooks, the following version is supported:

1. TLSv1.1 (From software 110 or higher)
2. TLSv1.0

There is a provisioning parameter that can be used to change the behavior.

Parameter	Value
BS_IP_Data.uii_TLS_MAX_VERSION	0x0302 = TLSv1.1 (Default) 0x0301 = TLSv1.0
