

Conference phones

VoIP Conference phones

The following VoIP conference phones have been tested by the Gigaset PRO team and are approved to use together with our Gigaset T440 and T640 PRO systems.

We do not provide any support on the configuration of these VoIP phones.

Below you can find the basic information how to connect them against our system and the minimum configuration needed.

DECT conference phones

The following VoIP analogue Gateways have been tested by the Gigaset PRO team and are approved to use together with our Gigaset N510 IP PRO and N720 IP PRO systems.

We do not provide any support on the configuration of these DECT phones.

If Konftel 300Wx has a DECT software version 932 the incoming call to the conference phone is not possible. Solution is to go back to DECT software version 925. Konftel is working on new software version.

Please contact Konftel for details.
