T300/T500 - Optional analogue ports

If analogue ports are needed, we have the following options:

Integrated Digium PCI cards with analogue ports

Linksys PAP2T adapter (Linksys stopped selling this adapter, SPA 112 is the replacement)

Grandstream HT 702/704 FXS-VoIP gateway

The Linksys PAP2T and the Grandstream gateways are analogue telephony adapter (commonly referred to as ATA).

These gateways enabling high-quality feature-rich VoIP (voice over IP) service through your broadband Internet connection. Just plug it into your network and use the two/four standard telephone ports to connect analogue phones or use one of the ports for a fax machine.

The Gigaset PBX T300 / T500 can configure all mentioned adapter using one touch provisioning (PCI-cards are automatically recognized). The PBX will configure the first SIP account in the Linksys automatically.
