T300/T500 - Fritzbox as VoIP Proxy

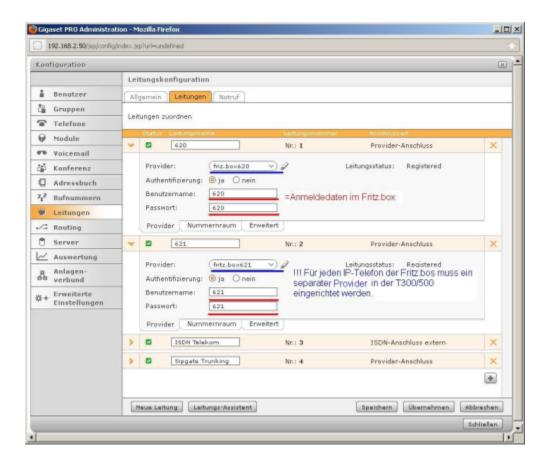

It is possible to use internal SIP accounts of Fritzbox as "line" for Gigaset T300/500 PBX.

For the provider settings have a look here:

Have attention to the following remarks too, please...

1. For each Fritzbox telephone a separate Provider has been to setup in the Gigaset T300/500 PBX:

2. For the number use the Fritzbox number (=Username):
