

# FAQ N720 Auto-Answer

## Introduction

Some VoIP platforms support Intercom/Broadcast groups, the platform can send an INVITE with a special header that enables the phone to answer the call automatically.

## Phone settings

In the N720 you can define what should happen if the call is ringing and this header is available.

Calls via Call Manager, accept call directly:

- Via headset
- Via handsfree
- No (Device will ring and you need to answer manually)

In the web-interface go to: **Settings - Mobile devices - Edit**

The screenshot shows a dark-themed settings panel titled "Call Manager". Below the title, the text "Accept calls directly via Call Manager" is followed by three radio button options: "via headset", "via handsfree", and "No". The "No" option is selected, indicated by a filled orange circle.

Option	Selected
via headset	<input type="radio"/>
via handsfree	<input type="radio"/>
No	<input checked="" type="radio"/>
