About UCware

As a provider of IP-based communications solutions made in Germany, UCware GmbH offer a wide range of expertise and extensive experience in telecommunications and system solutions. For the success of UCware, its hardware-independent communications solution, the company relies on agile methods and close relations with partners in the telecommunications sector.

Thanks to the modular structure of our product line, the custom configuration of IP PBX systems for up to several thousand users is possible. With its wide range of functionality, the solution is particularly geared to the needs of medium-sized and large companies. With its wide range UCware GmbH also offer industry solutions for banks, insurance companies, the public and health sectors, the manufacturing industry and logistics companies. Major features of UCware include optimum integration of existing resources such as networks, servers and (mobile) equipment, as well as scalability, which lets the solution grow with the needs of customers and users

See below for a list with supported features when using the Gigaset PRO IP Devices behind a UCware PBX System, tested with V $4.2.5.0\,$
