FAQ - Auto provisioning: nvm/configuration.xml

Valid for:	N610	N670	N870	N870E	Embedded Integrator	Virtual Integrator

Valid for N610 / N670 / N870 / N870E.

This file contains all provisioning parameters.

- macAddress is optional, but when used it should match the macAddress of the device.

Example without MAC address

```
<?xml version="1.0" encoding="UTF-8"?>
    <settings version="1.0" productID="e2" >
        <!-- SIP -->
        <param name="SipProvider.0.Name" value="ProviderA"/>

    </settings>
```

Example with MAC address

```
<?xml version="1.0" encoding="UTF-8"?>
    <settings version="1.0" productID="e2" macAddress= "7c:2f:80:e0:d6:d7" >
        <!-- SIP -->
        <param name="SipProvider.0.Name" value="ProviderA"/>

    </settings>
```
