About autphone

autphone is a national provider of communication services, providing integrated communication and collaboration solutions for business customers from 1 to over 1,000 employees.

Our solutions unite multiple voice and video networks, networked devices, and applications on a single, easy-to-use platform that enables teams to communicate comprehensively and efficiently, anytime, anywhere.

This is changing the way companies communicate and collaborate - improving team performance, stimulating business, increasing employee satisfaction and improving business performance.

See below for a list with supported features when using the Gigaset PRO IP Devices on the providers network.
