RoutIT

About RoutIT

RoutIT is founded in 2000 and offers innovative services in the field of Internet, cloud, connectivity, and communications solutions.

RoutIT distinguishes itself from other providers by using only an indirect approach to the market.

In other words RoutIT develops and realizes together with solutions for your customers. You should use the technical facilities and support offered by RoutIT. RoutIT ensures that you, as a partner of RoutIT, possess a thorough knowledge in order to achieve the desired solution for your customers.

Platform

RoutIT is using the Broadsoft platform.
Autoprovisioning manual

See below for a list with supported features when using the Gigaset PRO IP Devices on the providers network.
